PROFESSIONAL SUMMARY

Purchasing and Fleet Analyst in the transportation sector, having progressed from Purchasing Assistant I to Assistant III before taking on the current role. Create Power BI dashboards and fueling reports to monitor fleet activity and indicators each month. Handle vehicle rental invoices and records of traffic fines, damage, and preventive and corrective maintenance. Use Excel and Power BI in daily operations and apply Power Query, DAX and SQL in data analytics projects.

TECHNICAL SKILLS

Business Intelligence: Power BI, DAX, dashboards, KPIs, performance indicators, management reporting, data visualization

Data and querying: SQL, Excel, Power Query, data cleaning and transformation, ETL, data modeling, relationships and filters

Systems and operations: SAP ERP, SAT, purchasing, procurement, fleet operations, vehicle rentals, fueling records, preventive and corrective maintenance

Currently developing: Python, API integrations, Git and GitHub

PROFESSIONAL EXPERIENCE

MAFRO TRANSPORTES LTDA | Oct 19, 2023 – Present

Purchasing and Fleet Analyst | since May 1, 2024
Purchasing Assistant III | promoted Jan 19, 2024
Purchasing Assistant I | joined Oct 19, 2023

- Develop Power BI and Excel dashboards and fueling reports to monitor monthly fleet activity and indicators.
- Process vehicle rental invoices and record traffic fines, damage, and preventive and corrective maintenance.
- Organize and validate purchasing, supply and operational data for management reports, internal controls, and cost and expense analysis.
- Use SAP ERP and SAT for operational records and queries, and streamline reporting and tracking tasks in Excel.

RUMO LOGÍSTICA | Operations Apprentice | Nov 2021 – Sep 2023

- Checked operational information and invoices and supported purchase requisition creation in SAP ERP.
- Updated spreadsheets, material controls and inventory records, supporting consistent operational information.

DATA ANALYTICS & BI PROJECTS

Interactive dashboards and case studies are available in the public portfolio.

Spotify — Top 50 | Power BI · Power Query · DAX · Excel
Structured a daily music-ranking history into four report pages, separating distinct tracks from repeated ranking appearances. The report explores positions, popularity and artist/song presence over time.

XSales — Sales Analysis | Power BI · DAX · Excel
Organized net revenue, cost, profit and margin indicators, with analysis by period, country, product and customer type. Designed layouts for desktop and portrait viewing.

Sales Performance Tracking | Power BI · Power Query · DAX · Excel
Combined data from three stores and modeled relationships with products, salespeople and a calendar. The report connects high-level performance with store, product, salesperson and period breakdowns.

Fleet Fueling Management | Power BI · DAX
Developed a dashboard to monitor fueling activity by period, location and vehicle, based on a real operational need. The public version uses fictional records and license plates to protect business information.

EDUCATION

Computer Science degree — in progress

MBA in Supply Chain Management — Anhanguera | completed 2025

Technology Degree in Logistics — Anhanguera | completed 2024

COURSES AND CERTIFICATIONS

Expert in Excel Program — UNIFATEC / Daxus | 60 hours | 2026

Power Query and Data Modeling — Daxus | 8 hours | 2026

Mastering DAX — Daxus | 12 hours | 2026

SQL Fundamentals — Daxus | 7 hours | 2026

Power BI Fundamentals — Daxus | 12 hours | 2026

Dashboard Design — Daxus | 5 hours | 2026
